

**Casa & Playa Blanca Fishing Lodge
Casa Redonda Suites & San Roman
2023 Rates**

Dear anglers:

Attached you will find new rates for Casa Blanca and Playa Blanca Fishing lodges.
These rates apply from May 1, 2023, excluding reservations confirmed and/or already paid for.

Costs increase and inflation rates affect our operational costs, we have absorbed part of this negative effect since 2020.

May we emphasize that Casa Blanca Lodges have always used all operational surplus to maintaining infrastructure and ecosystems, since its very first day of operations.

We very well know that fishing is entirely dependent on biodiversity and ecosystems functionality. Punta Pájaros - Casa Blanca is proprietor of a large reserve area with a coast line 35 kilometers (22 miles) long. All activities within this area are regulated by federal law; coast line, reefs, jungle, mangroves and jungle are part of Sian Ka'an Natural protected Area. Our operational costs include not only maintenance of buildings and infrastructures, but nature conservation efforts for the entire island.

This year we will continue our very important investment program. Specially staff housing and sustainable energy generation.

Sincerely,

Alberto Labastida
Director
